Portfolio: siabookkeeping.com

Remote · available during US business hours

SUMMARY

Bookkeeper for US businesses, Intuit QuickBooks Online certified (Level 1 and 2). I keep books on accrual and cash basis, with expertise in payroll, inventory and reporting. Closed a full quarter of books in one week, from 70 source documents and 77 bank transactions to a balanced Balance Sheet and P&L. Brings 6 years of remote work in FinTech and EdTech teams: strict specifications, deadlines and process automation.

SKILLS

- **Bookkeeping:** journal entries, accounts payable and receivable, bank and credit card reconciliation, Undeposited Funds, payroll entries and accruals, sales tax liability
- **Tax Accounting:** adjusting entries, prepaid expenses, depreciation (straight-line), loan amortization, FIFO inventory and COGS, Trial Balance, Balance Sheet, Profit & Loss
- **Accounting basis:** accrual and cash basis, US GAAP fundamentals
- **Tools:** QuickBooks Online, Xero, Sage, Wave, Excel, Google Sheets, Workflow Automation Platform and AI tools

EXPERIENCE

Bookkeeper Jan 2026 – Present

Self-employed, Remote

Whitfield Interiors & Doors LLC: a door sales and installation company with no books kept. Prepared the books for Q1 for a sales tax return in one week, in Google Sheets.

- Closed a full quarter of books in 1 week, ready for the sales tax return.
- Reconciled 77 bank transactions and 70 source documents: the Balance Sheet balanced to the cent.
- Identified expenses missing receipts, an unused vendor credit and an underpaid invoice.
- Split loan payments into interest and principal.
- Accrued payroll at every month-end.
- Calculated COGS using FIFO.
- Now completing a QuickBooks Online project: W-2 payroll, 1099 filing and a review before Form 1120.

Digital Assets Specialist Aug 2022 – Jul 2025

UULA (EdTech, Kuwait), Remote

- Cut time to market by 20% by building a template structure for recurring launches.
- Improved launch effectiveness by 10% through structured A/B testing and analysis of results.
- Worked with research and engineering teams to turn test data into decisions.

Digital Assets Specialist Aug 2019 – Sep 2021

Dataduck (FinTech trading platform), Remote

- Cut production costs by 40% by automating a recurring process with JavaScript templates.
- Scaled one workflow to 10 languages without redoing the work, reaching new markets 50% faster.
- Reduced repeated support questions by 18–25% by explaining financial tools to users step by step.
